Personal projects

Design and creation of an e-commerce web application using JAKARTA EE (01/2022 – 06/2022)

http://www.fsdm.usmba.ac.ma/PFE/1011961/show

Our dissertation focuses on the creation of an e-commerce web application as part of our Bachelor's degree. Key objectives include presenting products in an online store, facilitating business transactions, online payment and tracking deliveries.

Interactive Portfolio Demo
https://github.com/soulaimaneeljanati/soulaimaneeljanati.github.io

This project features a responsive personal portfolio website design. It includes sections for home, about, services, portfolio and contacts. The website is designed to be visually appealing and user-friendly, making it ideal for showcasing your personal or professional work.
